The NZSG thanks those responsible for providing this index and for making it available to other NZSG members via this NZSG Collection. Special mention must be made of Kathy Bisman whose indexing team have contributed a large number of records from books which reside at the NZSG Canterbury Branch library.

Remember: Always treat genealogical information with sensitivity. Good genealogical practice means returning to the original source for verification whenever possible.

Other comments:

A significant number of the books mentioned in this index are held at the NZSG Family Research Centre, Panmure, Auckland under the references noted in the record itself. Others may also be found at public libraries throughout the country. Often the books contain more detail, including parents, spouses and children's names.

Two books previously included in this list were removed in Kiwi Collection V2 to form their own record type because of their significance for people researching in Europe. They were:

"Svenskarna i Nya" (Swedish)

"The First Swiss in New Zealand" (Swiss).
